

GORMLESS WOMEN OF THE MONTH

The Fawcett Society

Justice for men & boys (and the women who love them)¹ presents the inaugural ‘Gormless Women of the Month’ award to the feminists working tirelessly at **The Fawcett Society**, in recognition of decades of campaigning² underpinned by ideologically-driven ‘analysis’ of complex issues, driven by misandry (the hatred of men). Issues such as domestic violence, women in parliament, the gender pay gap, unemployment etc. Fawcett’s ‘analyses’ have been discredited decade after decade, yet still these gormless women carry on.

Ladies, we welcome you (along with your followers) to **The Gormless Club**.
